HARD TO SEE? DIFFICULTIES OF STUDYING SLOW AND STRUCTURAL VIOLENCE

In this workshop, we bring together scholars who approach the question of violence from a methodological perspective. We are particularly interested in ethnographic explorations of structural, slow or other forms of violence.

Part of the workshop will be a public lecture by **Prof. Tania Li**.

If you would like to contribute, please send us abstracts of up to 250 words by February 15 to ethnografie@dvpw.de
